DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

2. Claims 1-58 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The present invention provides a new apparatus, method and computer readable memory for efficiently compressing an image while maintaining high image quality (specification, page 2, lines 15-20). In particular, the new apparatus, method and computer product comprise the following features, which the prior art, either taken singly or in combination, does not teach:

- generating non-text multi-valued image data by converting multi-valued image data of the text portion using multi-valued image data of a portion other than the text portion (see claims 1, 10, 21, 33, 41, 49, 50, 51, 52, 54, 55, 56 and 57);

- computing an average value of colors of a portion other than the text portion in the block of interest and converting the multi-value image data of the text portion by using the computed average color value, when said discrimination means discriminates that the block of interest includes a text portion (see claims 53 and 58).

Art Unit: 2624

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
